

## **Hydro Electricity – Blue Team – 2002**

Last hug, stepping on the bus again  
Never thought, this day would come so soon  
He looks around, sees old familiar faces  
*Girls:* Heartbeat *Boys:* So fast  
*Girls:* Back here *Boys:* At last

Friendships hold strong like the years before  
Wishing, that she would hold his hand  
They learn, to love each other more and more  
*Girls:* Heartbeat *Boys:* So fast  
*Girls:* First kiss *Boys:* At last

### *Pre-Chorus:*

Wish Tamakwa never dies  
This special place inside our lives  
Holds a spot within our hearts  
Heaven in Algonquin Park

### *Chorus:*

Our love for this place  
We share with one another  
Living our youth as one  
We look to the future, hold onto the past  
As our summer is nearly done

Speechless, looking in each other's eyes  
What they've learned, they'll never realize  
Ready to say their last goodbye  
*Girls:* Heartbeat *Boys:* So fast  
*Girls:* Memories *Boys:* Will last

### *Bridge:*

Staring at the water  
Hold all that we believe  
Its arms around Tamakwa  
The beauty taking over me  
*Boys:* And the cycle of life it turns  
*Girls:* Even though the power is gone  
*Boys:* we embrace it in our arms  
*Girls:* We will turn the lights back on  
*All:* We will turn the lights back on

### *Chorus*

Days gone, many city nights have passed  
Memories, engraved into our minds  
Comfort, in knowing we'll be back again  
*Girls:* Heartbeat *Boys:* So fast  
*Girls:* Memories *Boys:* Will last

### *Pre-Chorus (once)*

#### *CHORUS x2*

As our summer is nearly done

## **Fossil Fuel – Red Team – 2002**

The time has come... Everyone  
Take a moment  
Look back upon... Memories fond  
Don't fade away  
Can't help smiling when I think of all the fun times  
We've all been through many different feelings  
Friendships formed to last a lifetime  
All together in the sunshine

The end is near... Close to tears  
For we have to go  
But when we go... It will show  
We're for the better  
...Changed forever

### *Chorus:*

I'm gonna tell you that  
The greatest place that we've all got  
Is here... It's right here  
So much time is spent  
Waiting for the year to end  
So we... Can come back here  
And someday, I'll say  
I wish... I could be here (x2)

### *Bridge:*

Tamakwa – Keepin' the lights up for us all  
Without coal you'd be powerless  
Go Fossil team!

## **Wind Power – White Team – 2002**

It's looking up at the Golden Sky  
Where Tamakwa's beauty illuminates my eye  
It's a silent paddle on a cold night  
It's the crystal clear water in the daylight  
It's a loon on the water at 6am  
It's sitting on the slope with a new friend  
It's the lasting friendships and memories  
We share, we share

### *Chorus:*

Talking and crying and laughing and growing  
Falling in love without even knowing  
Whispering winds on the shores of South Tea  
My second home that will never leave me, leave me

It's the smiles on their faces that make us feel better  
It's the children of Tamakwa that hold us together  
It's the values at camp that give us direction  
It's the sparkle of the fire in your eyes reflection  
It's the power you provide so safe and free  
Wind power will supply energy  
It's the lasting friendships and memories  
We share, we share

### *Chorus*

### *Bridge:*

I wanna stay, I just wanna stay  
I wanna stay, I just wanna stay  
So hold me, as the summer fades away  
Laugh with me, as the summer fades away  
Cry with me, as the summer fades away  
Dream with me, as the summer fades away

2 groups: hold me, as the summer fades away

### *Chorus*

## **Solar Power – Orange Team – 2002**

The absent wind no longer rushes  
Through the fallen leaves  
The stale air in a silence deep  
The dark clouds they may stream  
No cold winds could blow as free  
As my Tamakwa dreams  
Let me linger one more day  
With my treasured memories

### *Chorus:*

A picture in my mind's eye  
Crossing arms under a star-kissed sky  
The picture fades over the year  
Although I leave, my heart remains here  
Holding on to letting go  
Algonquin's magic fills my soul  
Looking forward to years ahead  
Hearing words that haven't yet been said

Tears blur my vision  
Of a forgotten memory  
I look deep into my soul  
To see what I can see  
When I feel like hope is gone  
Tamakwa comforts me  
I feel something magical  
Inside this reality

### *Bridge:*

On the loose to climb a mountain  
On the loose where I am free  
On the loose to live my life the way  
I think my life should be  
For I've only got a moment  
And the whole world left to see  
I'll be looking for tomorrow on the loose

When the winds get colder  
And the cabins are all bare  
I reach into my soul  
Wishing I was there  
It's more than just the sunshine  
And it's more than just the air  
It's the seasons and the feelings  
And the moments that we share

## **Nuclear Energy – Green Team – 2002**

A man lies and dreams  
Of tall trees and rivers blue  
He's chained forever  
To a world that crumbled through  
He talks of sunsets  
And dedication through the years  
And unceasing wind  
Vanquished all his fears

A jar of memories  
Just won't do, I need  
To stay a little longer here with you

### *Chorus:*

I thought he knew  
Just to close his eyes  
To see your golden skies  
Then he realized  
This is not goodbye  
And time flew  
Though the footprints fade  
The memories will remain  
Colours by the campfire  
Won't seem the same by day  
Thought he knew

Full moon shine  
Under a blood red sky  
Our time begins to wither  
Away in the sunshine  
Each day's sunset gives him  
One less day to live  
And one more day to remember  
What these shores have got to give

### *Bridge:*

Take me on a trip  
My canoe brings my trip  
My senses have been stripped  
The paddle tightly gripped  
The foggy ruins of time  
Through shadows in my mind  
The composure of the sky  
Wisdoms the windless guide  
The moon fell in my eyes

We exhaust the little time  
We exhaust the little time

### *Chorus*

Now the light is fading  
The realization comes to life  
The power brought before us  
Will conquer our endless strife  
For 2 days we've been searching  
For a way to end the night  
The growth of our friendship  
Rekindling the light

### *Chorus*

Twinkling distance lost  
We learn to govern the clock  
Falling words  
Hit the ground and start to talk  
Whispered confessions  
Meditate through my mind  
Counting sheep  
In Algonquin's star kissed sky

### *Bridge*

### *Chorus*
