

## **Dragon Song – Green Team – 2003**

Curtains close  
On a summer past  
There must be a way  
To make the moments last

Childish laughter  
Whispers in my ear  
These memories  
Are not confined here

The image changed and rearranged  
The waters ripple  
And become still  
Walk away  
I leave a path to return  
For I know I will

*Chorus*  
Outstretched arms in a violet haze  
Makes my pulse begin to race  
The seconds unwind  
A journey in time  
Back to a place I call mine

Woven in  
Quilted tapestry  
Beaming threads  
Of golds and reds

Tick tock of the sun  
Branches overhead  
Conversations  
With words never said

Exquisite sight  
Starlit night  
Inside fantasy  
Close your eyes  
Don't disguise  
The truth  
The bonds of youth  
Return to our roots

*Chorus*

*Bridge*  
The fire of the dragon  
Capture your heart  
Don't be afraid  
Cuz here's where it starts

*Chorus*

## **Mermaid Song – Blue Team – 2003**

Stand back; open your eyes  
Summer breeze, irreplaceable ties  
Warm days as the sun hits our face  
It's the feeling that embodies this place  
(x2)

Remember this day  
Time slips away  
But Tamakwa will live in our hearts

### *Chorus*

Sing loud, come together  
Enjoy this special moment  
We'll love each other forever  
Young love, everlasting  
We want to stay and play  
Just give us one more day  
We loved this place from the start  
(pause)  
Tamakwa will live in our hearts

Little girl, hold onto my hand  
A little boy with a devilish plan  
So you, impressionable minds  
A magic summer is theirs to find (x2)

Remember this day  
Time slips away  
But Tamakwa will live in our hearts

### *Chorus*

Another summer, back again  
Boys & girls have become best friends  
Late nights, talking till dawn

The summer's over, soon they'll be  
gone (x2)

Remember this day  
Time slips away  
But Tamakwa will live in our hearts

### *Chorus*

He's on her mind; she steals a glance  
He looks up and takes a chance  
First love, a whole kind of new  
A special bond, together they grew

Remember this day  
Time slips away  
But Tamakwa will live in our hearts

### *Bridge*

He sees a beautiful face  
A mermaid moving with grace  
This moment can't be replaced  
Look what they took from this place (x2)

### *Chorus*

Stand back; open your eyes  
Summer breeze, irreplaceable ties  
Warm days as the sun hits our face  
It's the feeling that embodies this place  
(x2)

Remember this day  
Time slips away  
But Tamakwa will live in our hearts  
(All x2)

### *Chorus*

### **Pan Song – Red Team – 2003**

Dreaming of summer days  
With the memory lying deep beneath the waves  
As the waters become my muse  
And chattering leaves pause to ignite the fuse

Though our paths may not cross  
We forever remain side by side  
Time and distance may fade us  
Familiar skies are forever lit in our minds

#### *Chorus*

You should come with me  
Where memory lights fantasy  
These few moments  
Are all that we need  
To create reality

Pan whistles to follow his lead  
To indulge in the rhythm of the trees  
The metronome of falling leaves  
The crisp harmony, the raindrops weave

All of the moments so rare  
Take time to stop and breathe the air  
Sands of time drip slowly  
You never know when you're making a memory

#### *Bridge*

Standing somewhere in between  
A timeline paved in memories  
It seems a millions miles away  
But it gets a little closer everyday

#### *Chorus*

#### *Bridge 2*

It seems a million miles away  
It gets a little closer everyday

### **Unicorn Song – Yellow Team – 2005**

Leave this world of heartache and grief  
Your strength and beauty always heals me  
Walk across these lands and through these leaves  
It is in you that we, we still believe

I am broken, it is never spoken but you always lift me up  
And I can't get enough  
Ride away tonight on a unicorn  
It is in this place I find myself reborn  
I need to find myself  
I know, I know I don't want to be anywhere else

You ride me to this natural utopia  
Reunited here you bring us back to us  
You ride on your beauty; I ride on your strength  
For so many years it always stays the same

Ride away tonight on a unicorn  
It is in this place I find myself reborn  
I need to find myself  
I know, I know I don't want to be anywhere else

Livin' in this cruel world  
I find  
Take me to the place that brings me happiness and peace of mind  
You walk away all these dreams  
So real it always seems  
Here with you is all that matters  
I can't let this dream, can't let it shatter

Ride away tonight on a unicorn  
It is in this place I find myself reborn  
I need to find myself  
I know, I know I don't want to be anywhere else
