

## **Numbers – Green Team – 1995**

I've been searching across the lakes and streams  
For a place where I can dream  
And I've been wandering through all of my soul  
For a place where I am whole – so much yearning

Like a God the sun will rise  
On a season precious – time is turning  
Through the mist the loons will cry  
And all the words they say  
Make me want to fly away

Daylight, moonlight  
Oh, oh, oh I can feel my silence breaking  
Oh, oh, oh what a life

And now I've found those who understand  
Who see me for just what I am  
And now I've learned just what friendship means  
Paddling through the pain you've grown with me – so much learning

Take my hand and we will go  
Deep beyond what scares us – so uncertain  
We'll do what we dreamed we'd do  
Bring on this brand new day  
There's nothing in our way

Daylight, moonlight  
Oh, oh, oh I can feel your laughter in me  
Oh, oh, oh, what a life

Daylight, moonlight  
Algonquin's waters glistening in my mind  
Daylight, the stars shine bright love

I'm flying  
Never thought I could ever be so high yeah  
Never thought that I would ever say  
I'm flying (repeat)

And now the night air is growing cold  
The bags are packed the stories told  
Leaves brown and fall down to the ground  
And I must leave what I have found – where I belong

Something cuts me to the bone  
Could it be this silence – coming on?  
What was once whole now must part  
But how can I still be  
Without all that's set me free?

Daylight, moonlight  
Oh, oh, oh I can feel the shadows  
Oh, oh, oh what a life  
What a life (x4)

## **Deuteronomy – Red Team – 1995**

The frantic rushing of the day  
Slamming doors and crowded halls  
All merge together in a way  
That jails me in a world of walls  
But as the time draws near  
Hearts beat high and pulses race  
Memories pass at star speed pace  
And only you can create the colourful dimension  
It's a simple gift, a gift to be free  
And when we find ourselves in a  
Place just right (just right for you and me)  
Our voices sound together in the magic of Algonquin's might

### *Chorus:*

With all of life's uncertainties  
So many roads to choose  
Your spirit carries with us  
Through our lonely days  
Softly the leaves of memories fall  
Gently we gather and treasure them all  
Tamakwa's world illuminates  
These memories we have won't go away

There is an echo in the wind makes me wonder where I've been  
In the summer, I've left behind faded pictures in my mind  
There is magic in the feel of a paddle  
And the movement of a canoe I saw miles and miles of distant sky  
Sitting silently next to you though we can't always remain  
Where we long to be it will always be the same  
Whispers of voices always heard through misty silver rain

### *Chorus*

### *Bridge:*

I wanna linger a little longer, a little longer here with you  
It's such a perfect night it doesn't seem quite right that it  
Should be my last night with you and come September I will remember  
As the year goes by I'll think of you and sigh  
This is so long and not goodbye

### *Chorus*

If you carry your childhood with you  
You will never become any older  
Treasure this bright and crimson sky  
These August nights are getting colder

To live in hearts we leave behind us is not to die  
Never feel alone, because we are always looking up  
At the same golden sky

### *Chorus*

## **Exodus – Blue Team – 1995**

As I gaze into the city sky  
My mind begins to wander  
To a picture perfect summer place  
Where dreams can last forever

The days I dream are always golden  
Any clouds are silver lined  
No one cries; just sounds of laughter  
Echoes in my mind

Wakonda's magic is everywhere  
Tuff Beavers do exist  
On the jagged shores of South Tea  
Unca Lou could not resist

With the glow of Northern Lights  
I hear a loon's plaintive air  
In the stillness of an August night  
I want always to be there

In the misty morning I awake  
With a knowing, smiling face  
The dream I dream is oh so real  
There is really such a place

### *Chorus:*

Tamakwa dreams  
Made each summer  
Last the whole year through  
Tamakwa dreams  
Are Indian summers  
That take me back to you  
Tamakwa dreams always come true  
Tamakwa dreams always come true

## **Leviticus – Purple Team – 1995**

Seems like forever since I saw your smiling face  
So good to touch the trees that give your shape  
I love the way your voice sounds in a starry place  
As the mist slides off the lake

### *Chorus:*

All we wanted was this dream to have and hold  
If you look close enough you will see  
Lou's dream told, it runs across this sacred land  
Like a shadow in the night

I remember this feeling once again  
As we round the bend, surrounded by our friends  
In this reality our spirits are found  
The blowing wind, the rustling trees

### *Chorus*

I'm in love with the sound Tamakwa makes  
When I paddle across a silent lake  
For 60 years traditions never change  
South Tea remains the same

### *Bridge:*

It's not far to go (girls sing)  
It's not hard to see (boys sing)  
I can take you there  
Where we are free

### *Chorus*

Tamakwa do you feel the magic in the air  
Friendships last forever  
In this world untouched by time  
We can be together

### *Chorus*

### *Bridge 2:*

It's not far to go  
It's not hard to see  
I can take you there  
Where we are free  
Where we are free
