

CARNEGIE – RED – COLOUR WAR 2008

Verse 1:

The sun shines so bright, all we see is light
Reflecting off the water, glistening in the night
Come sit by the fire, the embers burning bright
Put your arms around me, and everything'll be alright
(Break)
I can feel the wind, blowing through the trees
Take a walk with me, feel the summer breeze
Your eyes, your smile, everything I see
I'll remember you, and you'll remember me

Chorus:

I don't know when, we will meet again
But I know it will be soon
I don't know why, Summers pass us by
But we could still be friends
If just one more night

Verse 2:

You make me smile, whenever you're around
Heart beats so fast, lift me off the ground
Life's not the same, without you by my side
Just you and me, together for the ride

Chorus:

I don't know when, we will meet again
But I know it will be soon
I don't know why, Summers passed us by
But we could still be friends
If just one more night

Bridge:

If just for one more night
If just for one more night
If just for one more night

Chorus:

I don't know when, we will meet again
But I know it will be soon
I don't know why, Summers passed us by
But we could still be friends
If just for one more night

HEARST – YELLOW – COLOUR WAR SONG 2008

Verse 1:

Who you are
And who you'll be.
Find out here,
Learn with me

Friends you'll love
And things you will achieve
Would be picture perfect
If you didn't have to leave

Chorus

And on this night
The stars will shine like your eyes bright
And we will be
For one last time, a family

Verse 2

Close to me
But far away
Tomorrow is
Another day

I will think of you and smile
when we are apart
for now this night may be the last
but it's a brand new start

Bridge

You're by my side
And I'm alive
We are complete
Enjoy the ride
Whats real will shine
In your eyes

Time will pass
and we'll be back here soon
(x4)

Chorus (x2)

And on this night
The stars will shine like your eyes bright
And we will be
For one last time, a family

VANDERBILT – BLUE – COLOUR WAR 2008

Verse 1:

As we lie together
In the sun
Thinking about what is left to come
I want you with me every single day
Algonquin skies illuminate our way

Verse 2:

Hand in Hand
Under golden skies
I wonder what you're thinking as you look into my eyes
A sunset falls upon us
Time moves fast
What was the future
Has become our past

Chorus:

The summer that was and the person you are
The everlasting moments
That will only be ours
Crossing arms
Sloping hills of green
Always waiting
For you and me

Verse 3:

Leaves start changing
Things are rearranging
And my life will never be the same
Reminisce about this place we'll miss
like the soulful spirit one cannot explain

Bridge:

anticipating my return
It's here at this place that I have learned
And it's with you that I have grown
It is your soul I've come to know

Verse 4:

It's an early morning
And the rain is pouring
Don't look back
As we say goodbye
Return to the city
And our lives get busy
And the distance widens
Between you and I

Chorus (with clapping)

The summer that was
And the person you are
Everlasting moments
That will only be ours
Crossing arms
Sloping hills of green
Always waiting
For you to be with me

ROCKEFELLER – GREEN – COLOUR WAR 2008

Verse 1:

Woke up early morning
Her smiles on my mind
Being on these shores again
Our souls will intertwine
Will she remembers what I said
The laughs we had, those tears we shed

Verse 2:

Sitting roun the fire
His gaze catches mine
Cannot find the words to say
I'm searching for a sign
I still remember what he said
The laughs we had, those tears we shed

Pre-Chorus:

My hand in hers, her hand in mine
Waited so long for our love to shine

Chorus:

Take my hand and join me
All of your thoughts will be
Filled with my affection
This love is perfection
Weeks pass by so fast here
In your arms it's so clear
That our love will stay strong
This is where we belong
Take a deep breath my friend
Let's hope this will never end

Verse 3:

I walk in her direction
My hands start to shake
What to do, what to say
My feelings are at stake
Will she remember what I say
The things I tell her on this day

Verse 4:

His hand on my shoulder
Whispers in my ear
Emotions running high
Trembling with fear
I will remember what you say
The things you tell me on this day

Pre-Chorus

Chorus

Verse 5:

Walking off together
Hands clasp so tight
Heads lean in close
The stars are shining bright
We will remember our first kiss
The love we share, it's you I'll miss

Pre-Chorus

Chorus x2:

Take my hand and join me
All of your thoughts will be
Filled with my affection
This love is perfection
Weeks pass by so fast here
In your arms it's so clear
That our love will stay strong
This is where we belong

Take a deep breath my friend
Let's hope this will never end

This will never end,
This will never end.
