

## **ACTION ADVENTURE – RED – COLOUR WAR SONG 2014**

Got on the bus to find a seat  
So nervous I could hear my heartbeat  
Looked left, looked right  
Not a friend in sight  
And as you sat down next to me  
I could feel the start of a great memory  
The tears, the laughs  
Here is to our firsts and lasts

CHORUS:

The first time hearing, hello, hello, hello  
The first time seeing, that campfire glow  
That first jump of the tower  
And that first Robbies Beaver shower  
Cross arms, look at the sky  
We dread the day we say good bye

As pointer water sprays  
My thoughts go all different ways  
Those eyes, that smile,  
Wish these days would last a while  
And as we held hands and you looked at me  
I could feel the start of a great memory  
Our now, our past, here's to our first and Lasts

CHORUS

One more time we round the bend  
Reunited once again  
You look, at me  
Together finally  
And as you leaned in to kiss me  
I could feel the start of a great memory  
Our love, will last  
Here is to our firsts and lasts

Sleeping on the slope  
Looking up or the last time  
Tears streaming down my face  
As the sun begins to shine  
As pointer rides away  
I know I will be back one day  
These shores will never fade away

The last time hearing, hello, hello, hello  
The last time seeing, that campfire glow  
That last jump off the tower  
And that last Robbies Beaver shower  
Cross arms, look at the sky  
And now its time to say goodbye

## COMEDY –YELLOW – COLOUR WAR SONG 2014

It will be over in the blink of an eye  
From the first night of camp until the last time we cry  
Sing us a song that will remind us of why  
We never want to say goodbye

CHORUS:

Take in every moment  
Keep your eyes wide open  
Hold on to this feeling inside  
All my life, I've been looking for something  
Someplace special for me to call my own  
All my life, I never thought I'd find it here  
When I'm here, I feel at home

Rounding the bend, these feelings starting to show  
Returning to faces we've come to know  
Day after day, friendships continuing to grow  
All I can say is where did time go?

CHORUS

One last sunrise, as the summer fades away  
Cross our arms, hold my hand and we will sway  
I can't believe it is already our last day  
Asking ourselves why can't we stay

CHORUS

Girls  
All my life  
All my life  
All my life  
When I'm here

Boys  
I found it here  
Memories we share  
I feel at home  
I know I'm home

I know I'm home

## HORROR – GREEN – COLOUR WAR SONG 2014

In the city again, after 2 months away  
Returning to questions never known what to say  
How was your summer? It's been so long  
I'm lost for words because this all feels wrong

### PRE CHORUS:

They ask me why I crave the smell of the fire  
They ask me why I love a bracelet made of string  
They ask me what it means to turn to Wakonda  
But camps not something. It's everything

### CHORUS:

It's where a week feels like an hour, but a day feels like a year  
Being sent into the wilderness is an honour, not a fear  
Lead me beside still waters and restore my soul  
For the stress of the city can take its toll

You'll find the stars roam free out in the open place  
And inspire you to find your natural face  
You say that seeing is believing, but it's so much more  
Once you're back with your family on the golden shores

### PRE CHORUS 2:

They ask why cheer without a goal or purpose  
They ask why burnt wood is underneath my bed  
They ask why wait 10 months to live for 2  
I still have our song stuck in my head

### CHORUS

### BRIDGE:

Will they understand stars seem dimmer now  
Will they understand why I say how how  
Why can't they understand that I miss your embrace?  
Because you understand we are different at that place

### DIFFERENT CHORUS (slower)

It's where a week feels like an hour but a day feels like a year  
As we tend to grow older we grow farther from here  
Lead me back to still waters and restore my soul  
It's only at Tamakwa where we all feel whole

### CHORUS

## **DRAMA – BLUE – COLOUR WAR 2014**

Homeward bound  
10 months of waiting for that bend to round  
I see now  
When I'm lost I go here to be found

### PRE CHORUS:

It's an indescribable, unexplainable, thing we feel  
When were on the shores, in our own world, ourselves reveal  
How can this place be an escape from what we know  
Once you live here, its very clear, its always home

### CHORUS:

Cause on the shores, everything magic, everything's real  
From how we act to how you make me feel  
We lose track of time as 2 months go by  
But ill forever know this place is mine

As we depart  
Flashbacks of moments from the end to the start  
Even with miles apart  
Tamakwa always has a place in my heart

### PRE CHORUS:

CHORUS- exclude "mine"

### BRIDGE:

A place to grow, where thoughts run free  
A place that owns all my memories  
A place to laugh, a place to cry  
A place where there's never a goodbye

PRE CHORUS (start with indescribable)

CHORUS (X2)

... But ill forever know this place is mine.
